

Swiss Society of Systems Engineering
INCOSE Swiss Chapter

@South European Systems Engineering Tour (SESE)

May 20th-23rd 2019

About us

The Swiss Society of Systems Engineering (SSSE) is a non-profit organisation formed in 2011 by a group of like-minded Engineers, working across a broad range of industries, who share the passion of practicing, advancing and promoting Systems Engineering (SE) principles. SE is fundamentally: "doing engineering better".

Strategy

- Promote working groups
- Support SE-program and discussions

SE Working
Groups

- Support SE industry for their networking and knowledge sharing
- Keep the Adam Smith spirit: share to grow!

Industry

- Top Key notes
- Establishment as “place to be” for
 - SE people development
 - SE Methods
 - SE Tools

SWISSED

- Promote student prize
- More collaborations with Universities
- Support students in becoming INCOSE members

Academic

- Invite new contributions
- Invite new hosts

SELECTED
Events

- Support SE competency building in organizations in Switzerland
- Increase the number of Members of the SSSE

SE Competency
in Switzerland

Membership

This year
[2019-01-27]

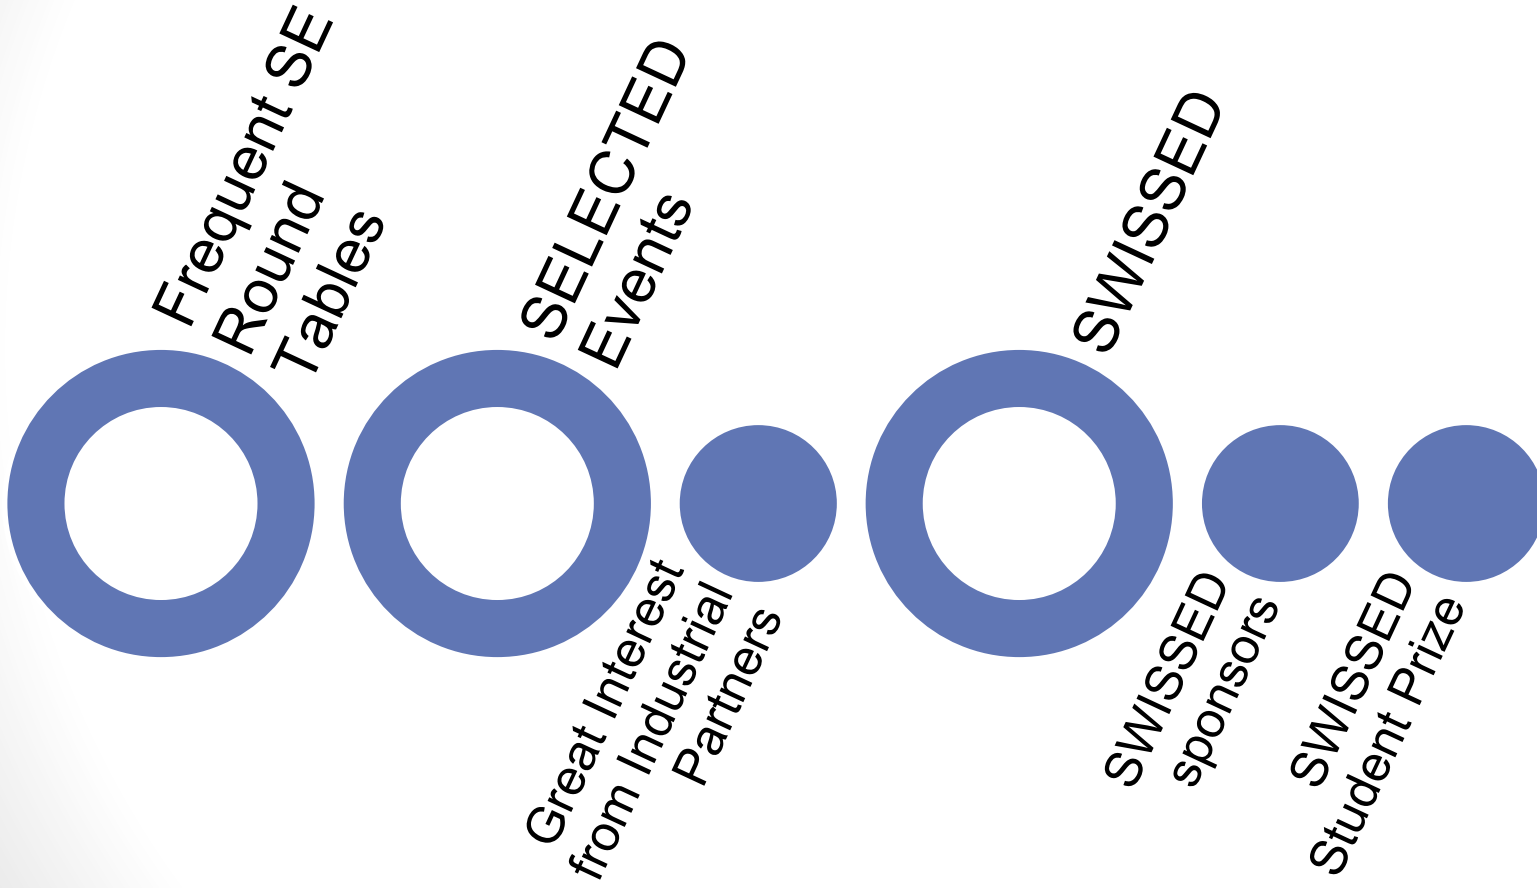

- 134 members of SSSE
- 29 CSEPs
- 27 ASEPs

Last year
[2017-12-04]

- 108 members of SSSE
- 16 CSEPs
- 22 ASEPs

Call for Presentations at SWISSED19

Home / Call for Presentations at SWISSED19 + Call for Presentations ...

At the beginning of the new year it is time to focus on one of this year's highlights – the **SWISS Systems Engineering Day 2019**.

The annual event of the SSSE will take place on **Monday 2-Sep-2019** in Zürich at the waterside of Lake Zürich. Beside the marvelous location the SWISSED19 presents three renown keynote speakers: **Alessandro Golkar, David Longlon Holt**

Furthermore, this year's event will function under the motto **"Systems Engineering – Connecting People"**. In addition to the offered technological challenges, working with complex systems is to a tremendous extent people business. Creating cross-functional and distributed teams, providing and communicating solutions in today's dynamic and complex problem spaces, involving various stakeholders over the different stages of the product life cycle, keeping up with the innovation...

SWISSED19 offers a unique platform to connect and discuss your System Engineering topic with other SE enthusiasts.

- Do you have an interesting project where Systems Engineering was one of the key drivers?
- Do you have key learnings, from which other SE colleges could profit from?
- Do you have expertise in specific SE methodology?
- Would you love to elaborate your most pressing SE related topic in a collaborative World Café session?
- Do you agree that it is worthwhile spreading the word about Systems Engineering and System Thinking?

YES?

Please register at <https://easychair.org/conferences/?conf=swissed19> and apply for a presentation (20 min talk) and/or to get the chance to moderate a World Café Session with your topic in the spotlight.

We are looking forward to your contribution to SWISSED19 and most important to live the motto of the conference "Systems Engineering – Connecting People"!

Secretary

- Markus Walker

Events

- Eugenio Forzani

SWISSED

- Annette Greil

Programs

- David Zünd

Membership

- Michael Johnson

Communications

- Pierfelice Ciancia

President

- Stefan Aeschbacher (Past)
- Gregor Schütz (Vice)
- Sebastian Klaves (Current)

SE Round Table

- Sarah Bostock
- Frauke Regge
- Markus Schacher

Affiliated Working Groups

- Werner Gerritsen
- Jesko Lamm
